

**Boskeez Grill**  
**Gillis, LA**

**HISTORY**

Boskeez Grill is located in Gillis, La. On hwy 171 N. Before it was a business, the house in which it is located was a family dwelling, and is approximately one hundred and eleven years old. Since Mr. Tommy Brown bought the property, renovated, and started conducting business there, unexplained events have occurred. Employees stated they have had feelings of being watched, hearing unexplained bangs and knocks. Upon opening one morning, they found spoons thrown on the floor from the front door, to the back of the room. Another time they found their menu sign, which hangs on a post in the dining area, and was once the living room, on the floor, neatly placed in front of the entrance door. On another occasion, the soap dispenser in the women's

restroom, which is back to back with the men's restroom and was the master bedroom, removed from the wall and placed across the room, on the floor, in front of the restroom door.

LaSpirits was given permission to investigate the alleged paranormal activity. Present were Aaron, Randy, and Erica of the Southwest Chapter, Lori of the Central Chapter, along with representatives of Boskeez Grill. An unexplained event occurred upon arrival. While inside speaking with the owner's daughter, a loud bang came from the women's restroom. Upon investigation, no explanation was found. During the night, cold spots were felt on two occasions, and the audible alarm, on the tri-field meter, sounded off a couple of times to questioning. After evidence was reviewed, nothing was captured in pictures or video, but we did capture the following audio clip that is interesting.
