

## Investigation Summary Report

### Clear Springs Restaurant Nacogdoches, TX

### HISTORY

Clear Springs Café was the first storage warehouse in Nacogdoches, TX to have refrigerated storage rooms. It is located right along side of a railroad track for easy access for storage. It had been rumored to be the meeting place of the KKK at one time. There were also rumors of a young girl being hung somewhere in the restaurant.

### REPORTED ACTIVITY

We were called in because there have been reports of people seeing a young girl standing on the stairway. Noises have been heard coming from upstairs and people have uneasy feelings upstairs. Some people will not go up there. People have also reported seeing a mist form above a table and then shake forcefully.

## INVESTIGATION

We arrived on location around 8:00 PM on July 26th 2008. On arrival, we had a nice dinner and talked with the manager. He told us some of the stories that he has been told from employees and patrons. After we ate, the restaurant began to close. Once the customers had left we were given a brief tour of the place. We began setting up around 10:30 PM. We used one DVR setup which included 4 infrared cameras. We also used a FLIR thermal camera, various EMF meters, various infrared thermometers, various digital cameras, and various voice recorders which include a H4 and H2. We went lights out around 11:30 PM. We broke into two groups of 2 and one person at the monitor. We rotated after 30 minutes. During the investigation 2 investigators heard what sounded like a growl in the upstairs area of the restaurant. One investigator also thought she saw something black go behind another investigator. We also got several strange emf spikes most of which could be explained. Another investigator saw a black mass moving upstairs on the monitor but after reviewing that part of the evidence, it was too dark to see. The night seemed active, we had several personal experiences. We began to wrap up around 3:00AM.

## RESULTS

After reviewing our evidence, we did not get anything on video. We did get a few questionable audio recordings but were too faint to validate as anything paranormal.

We would like to thank the owner, managers, and employees of Clear Springs Café for allowing to come in and do an investigation. Thank you so much for the hospitality and the great food!
