## Investigators Reports & Evidence

Location: Patterson, La.

Date: May 29, 2021

Investigators: Acadiana Chapter and Central Chapter

Equipment used: Several deer cameras, digital voice recorders, wireless video cameras, Rem pods, Mel Meter, K 2 Meters, digital still camera, SLS camera.

Before the team started base line our medium walked through all rooms in all of the houses. The medium then reported her findings to the group and owners. According to the owner and witnesses, the medium stated things about the house, property and activity. The team then proceeded with our base line sweeps for EMF in all areas. While doing the walkthrough we also took pictures. After the walkthrough we proceeded to set up all equipment in all locations. Then we went lights out for the investigation.

Several EVP sessions were done throughout all of the houses that evening. However, there were no clear EVP's to report in any locations. We did get muffled voices on an evp session but that was not placed in evidence due to it being unclear. After reviewing the video from the wireless cameras we caught the Mel Meter and Rem Pods going off in the Overseer's House. These went off during EVP sessions and when no one was in the house.

The teams did have several personal experiences in some of the houses.

## Attached Files

No files attached. We did post a video on our Facebook page (Louisiana Spirits) of the rem pod/ mel meter going off when no one was in the overseer's house.

## CONCLUSION

Louisiana Spirits has pioneered so many reportedly active locations in the state. By not simply going off of haunted tales, we treat any historic location as the next potential haunting. In regards to this location we feel there is possible activity. We are very grateful to the owner for allowing us to investigate their beautiful location.
