# HISTORY

This home is of brick construction, on slab. The home is 2 stories and has 5 bedrooms. The current clients have lived in this home for about 2 years, and have experienced strange events 2 weeks after moving in.

Albany Louisiana is in Livingston Parish. It was established in 1896 by Hungarians under the name A'rpadhon the leader of the Hungarian tribes and –hon as home {Land}. According to another source, Albany was named from the Natalbany River, a name which is of Native American origin. This may be significant because the husband is of Hungarian decent and his wife is Hungarian, Italian and Cherokee Indian. They did not know about the property's history before they moved in.

# EXPERIENCES

The wife has experienced something pulling on her feet at night and her blanket being pulled off. She often feels like something lying on top of her to the point it's hard to breathe. She also suffers from horrible nightmares ever since they moved in. The Master Bed room door has opened and shut on its own and the doorknob rattles and turns. The whole family has seen this happen many times. The wife and Husband were home when a vase on the table in the foyer was thrown to the floor with such force that it cracked and made a hole in the ceramic tile. A chandelier in the foyer also fell almost hitting the wife. The husband thought that it had come unscrewed over time but when he looked at it all the bolts were still securely in the ceiling. A large picture that was hanging in the formal dining room came crashing to the floor. It was securely on the wall. The wife, husband, 23 yr. old daughter and the 18yr old son saw on many occasions a figure of a female walking upstairs on the banister. The 18yr old saw the same female staring at him in front of his bedroom door while he was in bed. The 18yr old also calms that one night he came in late and decided to sleep on the couch in the living room, He said he heard and saw what he thought at the time was his sister trying to make him get off the couch, The next morning he found out his sister was not even home that night at all. The 23yr old daughter has seen shadow figures, heard knocks and bangs and seen the MBR door turn. The 5yr old girl is scared of her closet. She has to have the door shut all the time. The wife even said she has shut the door and it opens again. The child also said that her doll was moved from the highchair to the floor while she was at school. The 11yr old boy has had no experiences. Other things that have happened are some things get moved like their keys. They have a puppy and sometimes his behavior changes from happy hyper puppy to the hair rose up on his neck and back and he starts with a low growl. They also believe the puppy plays with someone or something upstairs when the kids are gone to school. The father works offshore so he is gone 28 days and home 28 days. Most of the activity seems to happen when he is gone. But in the last couple of weeks he has seen the shadow lady heard bangs and was home when the chandelier fell. He has also witnessed the doorknob turning and knocks on the door.

# Personal reports {Terri}

DATE OF INVESTIGATION: March 11, 2017

PARTICIPANTS: Terri Kilpatrick, Andy Clancy, Alex Tinsley, Julia StAmant and a trainee Brenda Sierra. The home owners were there and their 23yr old daughter.

EQUIPMENT: Digital Cameras, Infrared cameras and 2 DVR systems total of 8 cameras, 8 Digital audio recorders, Spirit Box SB11, Digital thermometers, 2 REM-Pods, Various EMF meters including Tri-Fields, Motion detectors including geophone and laser grid systems, Ovilus 3 & 5 interactive voice communications device, 2 K2s, Camcorder with night vision, Paranogies parascope, Sony A6300 DSLR camera and ZMODO network video recorder

INVESTIGATION:

At the time and places tested, no anomalous photos were taken. No data was noted on video. There were unusual breaks in light detected by laser grid in Foyer and balcony. The only EMFs we got that were high was in kitchen.

We all gathered in the living room for our first EVP session including the home owners and their 23yr old daughter. The dog was taking out of the house by the 18yr old son. I let the wife hold the K2 during the whole investigation and it went off several times. While asking questions the Ovilus 5 was going nuts spitting out words. A lot of them matched up with the questions we asked. We all witnessed a dark shadow pacing back and forth on the balcony and looking down on us during the night. Nothing was caught on the DVRs. I had the laser grid focused on the balcony and the foyer and the lights of the laser broke many times. I already knew before the investigation that the wife's father's ashes were in the house. I had her put his ashes in the living room. She also only had half of the ashes, her brother had the other half. I didn't tell the team, I wanted to see if they picked up his energy. I was told also before investigation that he committed suicide. But at that time I didn't ask how. She did tell me that he was a drug addict and an alcoholic. He was also very abusive to her mother and mean to her. When we asked, "How did you die?" the Ovilus said, bang, shot, barrel, murder. When we asked why you are here the ovilus said cremate, cremations. When we continued asking about how he died and why are you here the ovilus said: dig, bury, ground, coffin, tomb, grave, haunting, disembodied, justice, hate, stalk, scare. It was at this point I asked the wife did your dad shoot himself and she said yes. We also heard knocks when we asked for them to show us a sign. The Ovilus said my name before we stopped the EVP session and later in the night I heard a disembodied voice say my name as well. We got the rem pods going off during some of our questions before we moved to different rooms.

After the living room I broke the team into groups. I sent Alex and Brenda to the MBR. I sent Andy and Julia upstairs to the 5yr olds room. I stayed with the family in the living room and watched the cameras. Brenda laid on the wife's side of the bed and she asked the spirit to show her what it does to the wife. She felt something pushing down on her chest to the point of her having a hard time breathing. Brenda quickly got off the bed and started to the door when the ovilus said WAIT. The ovilus continued to repeat a lot of things it said in the living room. Andy and Julia did not experience anything in the child's bedroom except for a heaviness that we all felt just in that room. Besides knocks and bangs I got nothing further in the living room with the family.

I separated the group again. I sent Andy and Alex to the 18yr olds room while me, Julia and Brenda

went into the MBR. Brenda told me to lay down on the wife's side of the bed she did not tell me about what happened to her. I was not there long when I too felt a pressure on top of me and it got harder to breath. I felt like I was being restrained. I sat up on the bed and continued asking questions. I asked "What do you do to the lady who sleeps here?" The ovilus replied: tug, leg, pull, blanket, scare, control, grab, incubus, hold, tight. When I asked "how did you die?" The ovilus said: gun, shot, barrel, murder, cremate, ground, tomb, grave, dig,. I asked "Why don't you cross over?" The Ovilus said: Scared, Satan, trapped, hell, beg, purgatory, drink. Going with the chain of events with the Ovilus I said if you're worried about going to hell because you killed yourself you need to ask for forgiveness and take responsibility for your actions. I continued by saying that it's possible for you to go to a better place. The Ovilus continued by saying: preacher, Bishop, healer, follow, hope, purified, messenger, faith, and grace. I normally don't put much stock in the ovilus. But it was hard not to with everything it said making since from our questions. A lot of these answers were caught on our recorders during the night also.

With Alex and Andy not getting anything from the 18yr olds room I split the team up again for the last time. I sent Andy and Alex downstairs to cover the kitchen, dining room, and the 23yr olds bedroom. Julia, Brenda and I went upstairs to the 5yr olds bedroom. I sat down in the child's closet, Brenda sat down in the middle of the room on the floor and Julia sat in a chair. The ovilus never went off the whole time we were in the room. We asked a lot of question with nothing happening. After about 20 min. I started feeling like I was being choked and it got harder and harder to breath. The ladies wanting me to come out but I told them not yet. I could feel the child spirit trying to talk through me so I let her. I have only channeled a spirit 3 or 4 times in 25 plus years of investigations and its nothing I normally volunteer for. Brenda asked me what is happening. I said I am being choked. I also said "Daddy choke." When I asked why do you hide in the closet I got "Hiding from Daddy." Through this process she told me that her Nanny took care of her. We got the number 8 often on the ovilus in other rooms of the house so we feel it's possible this child was 8. The ovilus all night wanted me to go in the attic. The only ways in the attic did not look safe so we didn't go in there. But after what happened to me in the child's closet I had forgotten that the Childs room was once part of the attic. They remodeled the room to make another bedroom. When I was not with Brenda and Alex the Ovilus had said choked and attic many times. I was unaware it ever said chocked. I went ahead and called the inves for the night at around 4am. While we were packing up we were talking about what happened to me in the Childs closet. The 23 yr old said was also a nanny. And I am called Nanny to my grandkids.

## CONCLUSION:

Most of the activity throughout the investigation seemed to be centered on me. Julia during setup had to go outside for a few min because she all of the sudden found it hard to breath and her chest hurt. After about 10 min she was fine. We ended up with several EVPS and some of mine were class A. I have sent them in an attachment. I have also added pictures of the home. The ovilus was very active in the living room and MBR. The ovilus also said the name of the man who shot himself, the 23 yr olds boyfriend and my name a few times. The ovilus said many things that fit into our line of questioning. I believe that the wife's father's was there along with a child spirit and the spirit of the Childs Nanny upstairs. The only neg spirit I got was that of the father and another man that died on the property whose mannerisms match that of the wife's father. I think the wife's father was angry about being cremated because he wanted a coffin/tomb. I also feel he stayed around because he was afraid of what was waiting on him on the other side.

## BLESSNG AND CLEANSING THE HOME:

I was asked to bless and cleanse the home. Three days after the investigation Brenda went with me to bless the home. After we were done I sat down and talked to the clients. I advised them to combine the ashes with that of her brothers half and put them in a place he loved. Since I got fish, rod, river, and stream on the ovilus I asked them did he like to fish? The husband said he loved to fish. So I told them he might be happy if you put him next to his favorite fishing hole or in the water by his favorite spot. Since the cleansing there have been no further activities.
