Moving into the home, less than a year ago, the clients have experienced unexplained noises and movement of items. A child in the home speaks to a supposed spirit he calls “home-boy”. Cold spots have also been experienced in various places in the home.

## **Investigation**

Date of Investigation: August 15, 2020

Participants: Connie Williamson, Bess Maxwell, Kirk Cormier

Investigation Narrative:

The investigation began at 8:00 pm after most of the residents vacated the home while we investigated. Only the owner and her sister remained. The investigation consisted primarily of EVP sessions, Spirit Box sessions in the middle bedroom and living room. As our time was limited, we concentrated on the usually most productive means of investigation. Some possible evidence from the Spirit Box was obtained during the investigation but what was suspected as evidence is included below. The investigation concluded at approximately 10:15 pm.

## **Personal Experiences**

The only personal experience was reported by Bess Maxwell who, while sitting on the couch, during an EVP session, experienced a static charge feeling around her as well as a cold spot next to her. This was confirmed by a digital laser thermometer.

## **Model P-SB7 Spirit Box:**

Bess Maxwell asking the questions:

#1 Asked for name and possibly got the name “Christian”

#2 Asked if we can do anything and got possibly “yep”

#3 Asked if there was a message for the mother and possible answer “Mommy”

#4 Asked if anyone was near me and got the possible answer “Bess”

#5 In the fifth clip it sounds like the word “Bullshit”

## **EVP’s:**

None reported

## **Kinnect:**

Nothing captured

## **Other Devices:**

N/A

## **Digital Storage Devices Included:**

Clips included in this report

## **Conclusion**

There is reason to suspect possible paranormal activity due to claims by the client and evidence gathered during the short investigation. There is some concern regarding the interaction between “Homeboy” and a child in the home. A longer and more comprehensive investigation would be advisable to more accurately assess the situation
