# HISTORY

The building was constructed in 1926. It was the original city jail, fire station, and courthouse. It is now an art gallery, theater, and office space. The old courthouse is now a theater, and the old jail cells are now dressing rooms.

# EXPERIENCES

There are a reports of shadow figures and areas including the old cells, the projection booth in the theater, and in the kitchen area downstairs. A figure has been seen looking out of windows. One night, an intern was there alone and heard what sounded like a fight going on in the director's office, which was locked. She called the police and when they entered the office, no one was inside but furniture was over turned and papers scattered around.

Numerous EVP clips formed by the P-SB7 were noted.

# **PART ONE - AUDIO**

## **THE MODEL P-SB7 SPIRIT BOX**

**This device utilizes a milli-second adjustable forward or reverse sweep technique coupled with a white noise distribution between frequency steps. This is designed to add ambient sound energy for the production of real time EVP, allowing for instant feedback in communications attempts. See item 16 in “General Parameters of the EVP Phenomenon”.**

# CONCLUSION

At the time and places tested, no anomalous photos were taken. No data was noted on video. Nothing unusual was detected by laser grid. Some high EMF fields from AC current or other sources were found in some locations. No anomalous hot spots or cold spots were noted. No anomalous motions were noted. Numerous EVP clips were found made of words formed by the P-SB7. One EVP clip were recorded by standard digital recording. We feel that these experiences, and the positive tests received are probably indicative of an anomalous presence or presences, and that these do not seem malicious or harmful in any way. This testing, with its consistency and strength, probably is indicative of an anomalous presence or presences, though reclusive in nature. This would also be consistent with occupancy in such a secluded location.

**We would like to thank the clients for inviting us into their building, and for the opportunity to study the phenomena there. We would also like to thank them for their most gracious hospitality, and hope that me may be able to return there again soon.**
