

Investigation Summary Report

Private Residence
Thibodaux, OK

HISTORY

Reports of activity in the house ranged from hearing knocks and whispers to seeing a full bodied apparition of a little girl. Research of the property showed the original location of the house was a few blocks down and was built on top of a unmarked grave yard. To this day no one knows for sure who may be buried there or how old it is. What the homeowner has been told however, is that the woman who used to own the house refused to tear it down and believed no one would purchase it so she simply "gave it away". It is believed by the homeowner and her family that the woman was also seeing and experiencing the strange activity.

On January 3rd 2009, we held the investigation, arrived at 9:00pm and quickly set up and went "lights out". Due to inclement weather most of the audio was disturbed by the heavy thunder. We did not capture any significant signs of paranormal activity.

Since the investigation, the client has contacted her priest and is planning to have a "minor right of exorcism". We wish the client and her family the best of luck and would like to thank them for having us come out. As with any private residence, our lack of findings does not necessarily mean that there is no activity going on.
