

## Investigation Summary Report

### Private Residence Shreveport, LA

#### HISTORY

Louisiana Spirits were called in for help by the homeowners of a residence near Cross Lake in north Shreveport. The homeowners reported a number of phenomena, including loud bangs, voices, including that of a small child, shadowy figures and a general feeling of uneasiness in the master bedroom. The house has no known history of questionable events.

Four investigators set up cameras in the bedroom and living room and used digital recorders in various rooms plus EMF detectors around the residence. The night was generally quiet with only one brief period of EMF spikes in the master bedroom as an investigator asked any entity that might be there to stop frightening the residents. When asked if it understood, the EMF meter showed several spikes.

Unfortunately, the team did not capture any evidence during the evening, however, Louisiana Spirits plans to make this an ongoing investigation as the family is still experiencing unexplained phenomena.
